**A First Regiment Officer's Experience
with a Honolulu Credit.**

From the Honolulu-News Press
soon after the First Regiment, N.Y., returned home from Honolulu, the statement was made public in a New York newspaper that a leading clother Honolulu had been driven into bankruptcy by the failure of several companies to liquidate indebtedness for white suits made.

Lately one of the commissioners of the Newburgh company has noted that the firm had reported the collection by word of mouth officials of an account claimed to be due personally from him goods sold and delivered. It was referred to him through the usual trade channels. He claimed to have some written apparel made by the concern, but had settled his account before the order came to leave for home and on the day of leaving had paid a second bill for \$27.99 under protest. He could not disprove at that time, as his papers were all boxed, and the amount was so insignificant that he did not consider it worth making a fuss over, but filed his second bill with the first. Fortunately for him, as he now has used for them and in response to the request to liquidate he has sent copies to the proper authorities with the request that the extra \$2.79 be collected, with such other amount as may seem just for the defumation of character, shame and contempt attending the charge of being a dead beat dealer or an untrustworthy biller. There may be more heat to this.

ON THE TIP OF THE TONGUE

A pair of box kites sent up from Dr. Fancher's residence, Thursday afternoon, attracted the attention of many who had time to watch them. They were sent up to a very high point, where they sailed prettily in the breeze. Kite-flying, as a pastime for boys, however, is a sport of the past. Few are to be seen nowadays, and dealers keep them on the back shelves. It used to be that every wire had some portion of kite flying paraphernalia twisted about it, but the wires are all clear nowadays.

BROOKE IN A PALACE

Governor General Moves to Former Home of Weyler.

FORMER HEADQUARTERS ABANDONED

The Old Time Seat of Spanish Power in Havana Has Been Renovated For Its American Occupants. Some Wild Stories Denied.

HAVANA, July 14.—Governor General Brooke and the members of his family reached the palace last evening, the residence of the former governors general of Spain, made famous by the history of Cuba by the battles of War of Campesinos, Blanca and a host of others. The building has been more or less modernized every decade. The renovators have gone carefully over the furniture, which is of the finest woods the island produces, mahogany, cedar and rosewood; have regilded the mirrors, added artistic decorations, and applied fresh paint everywhere. The old structure now looks new. The statue of Columbus in the courtyard, carved out of the finest marble and now more than 200 years old, has been carefully washed. This work was only finished Wednesday. One of the most interesting relics in the palace is the bed upon which the Princess Eulalia slept during her visit to the western hemisphere in the Columbian exposition year.

The old headquarters at El Vedado are now practically abandoned. General Gutiérrez, the governor general's chief of staff, and Adjutant General Richards left in the morning. The clerks and ostlers who were engaged in preparing the desks for removal remained until evening.

General Ludlow says there is no truth in the report that he had consulted the governor general regarding a reduction in the salary of the chief of police and an abolition of the post of assistant chief. Nor is there any foundation for the story published in the United States asserting that a disbursing officer at Palacio had decamped with funds and that when 122 employees of the engineers' department asked for their wages Colonel Black angrily answered that nothing was due them. Colonel Black says there is only one disbursing officer in his department, that this official has not fled and that the men were duly paid at the beginning of the month.

Appraisal of Spanish Ships.

WASHINGTON, July 14.—The navy department has ordered an appraisal of the captured Spanish cruiser Maria Theresa and of all the war material recovered from the other ships engaged in the battle of Santiago. This step is due to a question raised as to the right of prize money growing out of the capture of this ship. The Theresa was the one captured, raised, and although she went ashore while on her way to this country and is an abandoned hulk on Cat Island it is claimed in some quarters that the raising was sufficient to warrant the payment of prize money. The appraisal of the ship will be based on her value at the time she was raised. The property to be appraised includes the munitions and equipment recovered from the other Spanish ships. The board which appraised the Spanish ship Reina Mercedes has reported her value at \$73,000.

Iron From Newfoundland.

PHILADELPHIA, July 14.—An inquiry has been made in shipping circles that thousands of tons of iron ore have been purchased in Newfoundland by local capitalists for shipment to Philadelphia to be manufactured into steel and that already two schooners with samples cargoes of the ore are now en route to Philadelphia from Newfoundland. The demand for iron and manganese ores for the manufacture of steel is tremendous, and not only are the mines in distant British India, on the Black sea and in the Mediterranean districts being drawn on to supply this demand, but shipments are being made from Rio Janeiro and other parts of Brazil. At present there are 26 steamships on their way to this port with cargoes of either manganese or iron ore.

The Guatemala Case.

WASHINGTON, July 14.—It is probably what attitude will be adopted in this case in case an attempt should be made by European countries to seize custom houses in Guatemala to collect money for bondholders.

In the case of the Corinto landing a indemnity having been demanded by Great Britain for the ill-treatment of her consular officers, but our government heretofore, and notably in Mr. Blaine's time, has leaned to the belief that the holders of government bonds, being individuals, took their bonds subject to the vicissitudes and chances of repudiation, the prices being regulated by the risks incurred.

Two Bodies Found.

CLEVELAND, July 14.—The bodies of two of the victims of the wreck of the steamer Owl, which occurred off Lorain on the night of June 28, were found floating yesterday in the lake by a tug. They were those of the captain, John Brown, and his young son, Blanchard. Only two other bodies have thus far been recovered, those of Mrs. Constance Hunt, a passenger, and Frank Hipp, the watchman.

Baseball Club Disbands.

OSWEGO, N. Y., July 14.—The Oswego baseball club has been disbanded, and the local franchise was surrendered to President Farrelly by the directors. The players were paid to date. Manager Sayer announced that the game was ended as far as Oswego is concerned. Poor patronage was the cause.

Uprising in Peru.

LIMA, Peru, via Galveston, July 14.—The separation uprising in the southern provinces of Peru is pending, and the government has sent 500 infantry and cavalry into the rebellious district.

HER ROSE ARRIVES.

The German Consul at Samoa interviewed at Washington.

WASHINGTON, July 14.—Herr Rose, the German consul general at Samoa during the recent exciting events there, arrived in Washington unexpectedly yesterday and reported to the German embassy. Ambassador Hoheleben was about to start for New York to meet Mr. Mann, the official who has come from Berlin to act as chargé d'affaires this summer, but before his departure he called on Herr Rose to thank the department and presented him to Secretary Hill and Assistant Secretary Hill.

This gave an opportunity for a rather extended conference on Samoan affairs, in the course of which Herr Rose defended his course during the troublous days of last spring and explained his view of many of the incidents in which he and Admiral Kautz and the various other officials at Samoa were concerned. The period of Herr Rose's service covered also the contention over Chief Justice Chambers' decision as to the right of Malietoa to occupy the throne of Samoa and the clash with the natives following the questions raised as to this decision. Herr Rose repeated his version of these incidents fully.
